TORTURE VICTIMS: 19

ENFORCED DISAPPEARANCES: 38

KILLED BY PAKISTANI FORCES: 2`

PAANK HUMAN RIGHTS DEPARTMENT

Monthly report of human right situation in Balochistan

The human rights situation in Balochistan, is reportedly extremely dire, with the Pakistani security forces being accused of consistently violating human rights, including through the use of enforced disappearances, torture, and raids on homes. In December, 38 people were allegedly abducted and the mutilated body of Imran Babo was found in Awaran. Despite the release of 19 previously abducted individuals, the month reportedly ended with continued impunity and injustice. The freedoms of speech and movement are also being restricted in Balochistan, and political activists are being arrested. The situation in Gwadar is particularly concerning, with the use of force against civilians and the shutdown of the internet. The residents of every city, town, and village in Balochistan are said to have experienced oppression, injustice, and inequality at the hands of the Pakistani state forces.

These alleged human rights violations in Balochistan are a clear violation of several United Nations articles, including article 2 of the International Covenant on Civil and Political Rights, which states that "Each State Party to the present Covenant undertakes to respect and to ensure to all individuals within its territory and subject to its jurisdiction the rights recognized in the present Covenant, without distinction of any kind, such as race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status." The enforced disappearances and torture of civilians, including women and children, also violate article 7 of the Covenant, which states that "No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment." Killing of civilians violates the right to life, liberty and security of person (Article 3), the prohibition of torture and cruel, inhuman or degrading treatment or punishment (Article 5), the right to freedom of expression and opinion (Article 19) and the right to freedom of movement (Article 13). It also violates international law, including the International Covenant on Civil and Political Rights, to which Pakistan is a party.

It is deeply disturbing that the United Nations and human rights organizations have reportedly remained silent on the human rights situation in Balochistan. This silence is alleged to only serve to further enable and legitimize the ongoing abuses committed by the Pakistani security forces. It is imperative that the international community, including the UN and human rights organizations, take immediate action to address and condemn these ongoing human rights violations in Balochistan. The people of Balochistan deserve justice and protection of their fundamental human rights.
