A Comprehensive Report

by BNM Social Welfare Dept.

**Report of Baloch National Movement Social Welfare
Department on the poor educational situation of
Gichak Tehsil of Panjgur District**

October 2023

Panjgur District:

Panjgur, a district of Makuran Division in the colonial system of Pakistan, is divided into three tehsils and sixteen Union Councils. The district has a population of around five lakh. Sadly, Panjgur has also been a victim of Pakistani brutality like other areas in Balochistan. The Pakistan army has been responsible for enforced disappearances of a large number of people in the district.

Ever since the Pakistani occupation, every division and district in Balochistan has faced persecution, severely paralyzing the region's social, economic, political, and educational life. The colonial system of Pakistan has had a detrimental impact on the lives of the Balochistan citizens.

The Social Welfare Department of the Baloch National Movement has recently published a report on the educational situation in Balochistan. The report focuses on three tehsils in the Awaran district and two tehsils in Khuzdar district.

The reviewed report is part of a series of previously published reports that shed light on the educational backwardness of Balochistan. It specifically highlights the dire state of education in Tehsil Gichk of Panjgur district. Pakistani atrocities have transformed educational institutions into military camps and ruins.

Gichk Tehsil:

Gichk Tehsil is a part of the Panjgur district and has been subjected to the rule of the Pakistan Army, just like other districts of the Makuran division. Under this rule, people are deprived of basic facilities in every sphere of life, including health and education.

The lack of resources and facilities severely impacts the educational system in Gichk Tehsil. Schools in the area are dire, with a significant shortage of teachers and many school closures. Moreover, reports of schools being converted into military posts further exacerbate the education crisis.

Here is a list of schools in Gichk Tehsil affected by these circumstances. These schools require urgent attention and support to improve the educational situation in the region.

In Tehsil Gichk, seventeen schools are currently suffering from a severe shortage of facilities. These schools have also been captured by the Pakistan Army and converted into military posts, further compounding the problems faced by the area's children, who are deprived of primary education.

Through this report, the Baloch National Movement urges international organizations to take notice of the dire situation in Balochistan. It calls for support from these organizations in liberating the Baloch people from the oppressive rule of Pakistan and addressing the power dynamics that deprive the people of the region of basic facilities.
