

# STOP ENFORCED DISAPPEARANCES IN **BALOCHISTAN**

The systematic abduction, enforced disappearance, and widespread human rights violations against innocent Baloch women, children, and families by the Pakistan Army constitute grave violations of international law. These practices amount to collective punishment against a peaceful population.

In recent years, violence against Baloch women has intensified. Women and family members of politically and human rights-active individuals, including relatives of the Chairman of the Baloch National Movement (BNM), are being deliberately targeted through enforced disappearances, harassment, and intimidation. This policy aims to silence the Baloch people through fear and repression.
