Baloch National Movement — Party Flag and Monogram

Construction sheet: the flag's proportions, star, colours and standard sizes; the monogram's history, elements and method of construction

The party flag (drawn to the measurements on this sheet).

Party Flag

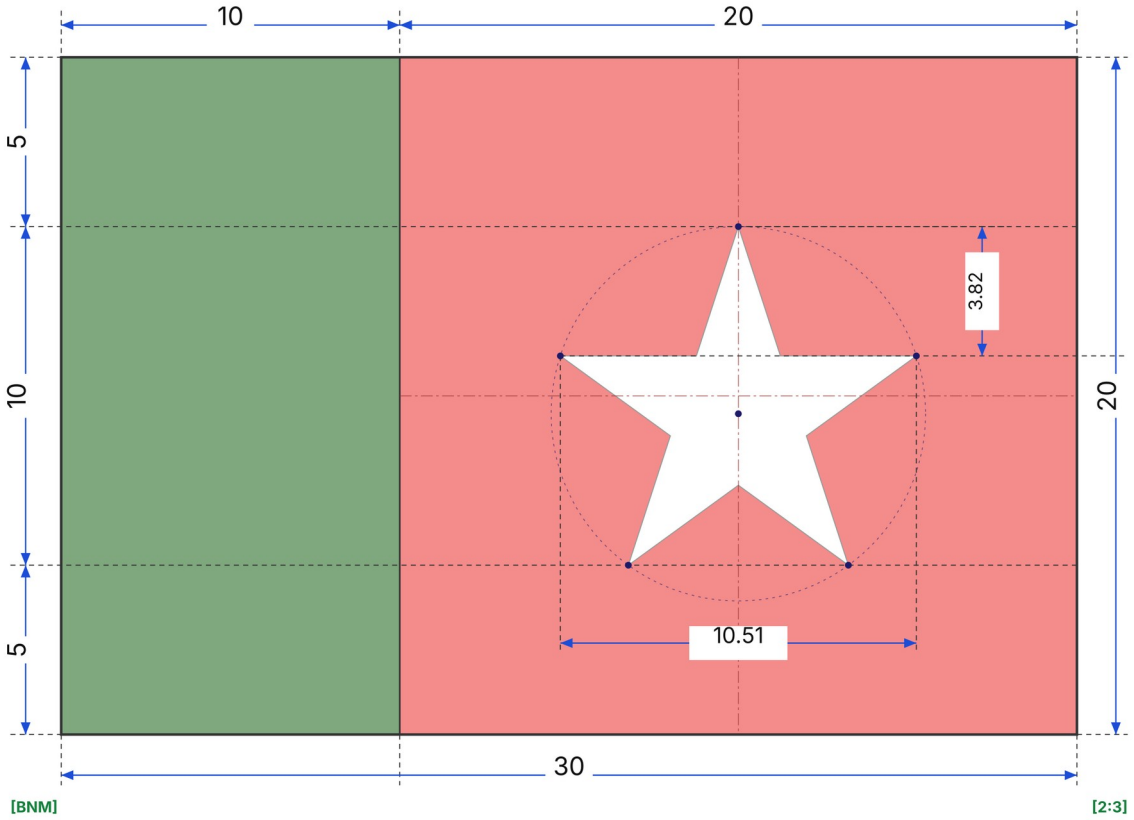

The design of the Baloch National Movement (BNM) flag was approved in 1987 on the proposal of Shaheed Fida Ahmed.

The Flag in the Constitution

The party flag shall consist of red (two thirds) and green (one third). Red shall be on the right and green on the left. In the middle of the red shall be a five-pointed star.

Construction Drawing

Measurements are given on a 30 × 20 grid (one unit = one thirtieth of the flag's width). For actual dimensions, multiply each figure by the size of one unit.

Construction sheet: green band 10, red field 20; the star sits at the centre of the red field, and its height is half the height of the flag.

Measurements

Element	Units (30 × 20)	Rule
Proportion (height : width)	20 : 30	2 : 3
Green band (hoist side, left)	10	One third of the width
Red field (fly side, right)	20	Two thirds of the width
Centre line of the star	20 from the left edge	Vertical centre line of the red field
Height of the star (from the top point to the line of the two lower points)	10	Half the height of the flag
Top point of the star	5 from the top edge	A quarter of the height
Two lower points of the star	5 from the bottom edge	A quarter of the height
Line of the two side points	8.82 from the top edge	3.82 below the top point
Width of the star (from one side point to the other)	10.51	Height of the flag × 0.526
Circle through all five points	Radius 5.528, centre 10.528 from the top edge	Height ÷ 1.809

Element	Units (30 × 20)	Rule
Inner corners of the star	Circle of radius 2.111 on the same centre	Outer radius × 0.382

Colours

Colour	HEX	RGB	CMYK (for print, converted)
Green	#005200	0, 82, 0	100, 0, 100, 68
Red	#FF0000	255, 0, 0	0, 100, 100, 0
White (star)	#FFFFFF	255, 255, 255	0, 0, 0, 0

Screen colours are taken from the official flag image. Printers and tailors should match the colour against a printed or fabric sample, since ink and cloth render colour differently.

Standard Sizes (centimetres)

Flag (height × width, cm)	Green band width	Red field width	Star height	Star's top point from top edge	Star width
10 × 15	5	10	5	2.5	5.3
20 × 30	10	20	10	5	10.5
60 × 90	30	60	30	15	31.5
90 × 135	45	90	45	22.5	47.3
100 × 150	50	100	50	25	52.6
120 × 180	60	120	60	30	63.1
150 × 225	75	150	75	37.5	78.9
200 × 300	100	200	100	50	105.1

How to Draw the Star

1. Draw the vertical centre line of the red field, 20 units from the left (hoist) edge, that is, 10 units into the red after the green band.
2. On this line, mark the top point a quarter of the height (5 units) below the top edge.
3. With its centre on the same line, 10.528 units below the top edge, draw a circle with a radius of 5.528 units. The top point lies on this circle.
4. Starting from the top point, mark four more points around the circle, one every 72 degrees. These are the five points of the star; the two lower points fall exactly a quarter of the height above the bottom edge.
5. Join every second point to form a five-pointed star, and fill its outline in white.

Notes

- The constitution sets the colours, their sides and the star in the middle of the red field.

- The 2 : 3 proportion, the size of the star and the colour codes were measured from the official flag image (2576 × 1717 pixels), in which the green band is exactly one third, the star is half the height of the flag and is centred vertically.
- In the official image the star sits about 1% of the width to the left of the exact centre of the red field; on this sheet it is placed exactly at the centre, as the constitution states.

Party Monogram

At its Central National Council session in 2010, the Baloch National Movement decided to adopt a sketch of its leader, Shaheed Waja Ghulam Mohammad Baloch, as the party monogram. The digital artwork was created by Qazi Rehan. The design was later framed within a circle and joined by the party flag and a wreath of wheat, which symbolises the BNM's ideological richness and its role as guardian of Balochistan's intellectual heritage.

In 2026 the monogram was given a three-dimensional form. The 3D artwork, also by Qazi Rehan, is the 3D version of the approved monogram and follows exactly the sketch approved in 2010.

The sketch approved as the party monogram in 2010: Shaheed Waja Ghulam Mohammad Baloch (digital art: Qazi Rehan).

The earlier (two-dimensional) version of the monogram: circle, party name, flag and wheat.

The 2026 3D version (Qazi Rehan), true to the sketch approved in 2010.

Elements of the Monogram

- An outer gold ring.
- Within it, a white band, with the party name, BALOCH NATIONAL MOVEMENT, set along the curve of its upper part in bold black letters.
- An inner gold ring, and within it the sketch approved in 2010.
- Below the chest of the sketch, the party flag in a wave: green on the left, red on the right, and a white five-pointed star in the red.
- In the lower part of the white band, gold sprays of wheat on either side, and a round gold dot at the bottom centre.

Proportions

Taking the radius of the outer circle as 1, each element lies at the following distance from the centre:

Element	Distance from the centre (fraction of the radius)
Outer gold ring	From 1.00 to 0.93
White band (for the name)	From 0.93 to 0.71
Letters of the party name	About 0.88 to 0.75
Inner gold ring	From 0.71 to 0.66
Inner circle with the sketch and the flag	Up to 0.66

These proportions were measured from the official image of the monogram (8000 × 5000 pixels).

Colours of the Monogram

Colour	HEX	Where
Green	#005200	The green of the flag

Colour	HEX	Where
Red	#FF0000	The red of the flag
White	#FFFFFF	The star and the name band
Dark gold	#BA7325	The darker side of the gold rings
Light gold	#EDC542	The lighter side of the gold rings, the wheat and the dot
Light grey	#EDEDED	Background of the sketch in the earlier version (the background may change with the design)

The flag colours are those given in the first part of this sheet. The gold colours are taken from the official image. In the outer ring the gold is darker at the top and lighter at the bottom; in the inner ring it is the reverse.

How to Construct the Monogram

1. Set the outer radius and draw a circle about the centre. Fill a gold band from the edge inwards to 0.93.
2. Place a white band from 0.93 to 0.71. In its upper half, set the party name, BALOCH NATIONAL MOVEMENT, along the curve, from left to right, in bold black letters.
3. Draw the inner gold ring from 0.71 to 0.66.
4. The background of the inner circle (0.66) may vary with the design, the paper and the presentation; place the sketch approved in 2010 at the centre of its upper part. The details of the approved sketch may be rendered in different art forms, so that it is striking or suitable for the needs of a particular poster, banner or publication; however, under the decision of the 2010 session, the sketch of Shaheed Waja Ghulam Mohammad may not be altered from the original.
5. Below the chest of the sketch, place the party flag in a wave so that it fills the lower part of the inner circle: green on the left, red on the right, and a white star in the red.
6. In the lower part of the white band, place gold sprays of wheat on either side, curving down towards the centre, with a round gold dot between them.

Guidelines for Use

- Do not stretch or squash the monogram; always keep it round.
- Do not alter the sketch, the flag, the name or the colours.
- For print and large sizes, use the original file, not a compressed copy.
- Leave some clear space around the monogram so that no text or image touches it.
